Congratulations on your purchase of the PetSTEP Folding Pet Ramp!

Enjoy a closer and more fulfilling relationship with your pet because you can now take your pet with you. The **PetSTEP Folding Pet Ramp** allows easy access in and out of vehicles such as SUVs, pick-up trucks, vans, station wagons, RVs and even boats. It also provides safe access onto examination and grooming tables, couches, beds or chairs, back yard decks, boating docks, grooming tubs and swimming pools.

Keep your pet fit by promoting healthy joints. All pets, even young ones, should avoid the repeated shock that occurs when jumping down from high places. Older and reluctant pets may need the assistance of a ramp to go up and down stairs. All types of household pets – dogs, cats, potbelly pigs, and others, can benefit from a **PetSTEP Folding Pet Ramp**.

The **PetSTEP Folding Pet Ramp** will help you avoid injury that comes with unnecessarily bending and lifting your pet, and your pet will love its newly found independence.

Operating Instructions

Your **PetSTEP Folding Pet Ramp** comes ready to use. No assembly required! Simply unfold the ramp and place the top end of the ramp on the bumper of your SUV, the edge of the pick-up truck bed or the side of an examination table, grooming tub or deck. Make sure that both of the non-slip rubber feet have a secure hold. After use, fold the ramp and stow it in a convenient location.

Your pet may need to be guided up and down the ramp, especially during the first few uses. Some pets may require training to get used to the ramp. See our included Training Tips or go to **www.petstep.com** for suggestions on getting started.
